ONE STOP SUPPLIERS OF TRANSMISSION PARTS AND FLUIDS
Stellar Automotive Group and LUBEGARD® have created a unique union where customers can procure all their transmission parts and fluids from a single source. The options are extensive, customer service comprehensive, and pricing competitive. Stellar offers a full line of transmission parts and LUBEGARD has the fluids to keep them running perfectly.

For over 25 years, Stellar Automotive Group has been committed to finding customers the best parts at the best prices. Our direct relationships with top OE and aftermarket parts manufacturers throughout the world allow us to offer more options. In house development work allows us to create products in response to customer inquiries. We regularly customize kits to meet customer’s specifications.

LUBEGARD® is a world leader in the research, development, and manufacture of patented high performing lubricants and related products. Our products have been approved, endorsed, recommended & used by OEM’s, are the written solution in OEM technical service bulletins, and endorsed by the largest transmission chains. Whether you are looking for transmission and/or general repair fluids, Lubegard® has the solution.
CONTACT US:
Take advantage of us as a single source supplier with our product, pricing, and distribution synergies!

Stellar Offers:
› Bushings & Bushing Kits
› Hard Parts
› Solenoids & Sensors
› Bands & Sprags
› Washer & Washer Kits
› Sealing Rings & Ring Kits
› Frictions & Friction Modules
› Steels & Steel Modules
› Pistons/Piston Kits
› Filters
› Seals
› OE Belts & Chains
› Torque Converter Parts
› Valve Body Parts
› CVT Parts
› Coolers
› Overhauls
› And more...

Lubegard® Offers:
› Transmission Fluids, Additives & Flushes
› Transmission Filters/Filter Kits
› Professional Assembly Aids
› Multi-purpose Lubricants
› Gear & Engine Additives
› Cooling System Additives
› Power Steering Fluids & Additives
› Fuel & Brake System Products

### Automatic Transmission Fluid Protectant

The #1 used and trusted transmission protectant in the transmission industry and the only product of its kind to be used, endorsed, designated, and approved by multiple major automobile manufacturers (OEMs).

- For use with any ATF, except Ford Type F and CVT and DCT applications.
- Prevents overheating, reduces operating temperatures.
- Allows the ATF to easily transfer heat to the outer case.
- Extends fluid life.
- Reduces ATF foaming and oxidation.
- Eliminates clutch chatter and torque converter shudder.
- Protects against wear.
- Softens and modifies harsh shifts.
- Keeps valve body components from sticking.
- Does not contain harmful chemicals like zinc (ZDDP), chlorinated paraffins, Teflon®, solvents or seal swelling agents.
- Protects seals and helps restore older seals to a “like-new” condition, without adverse side effects.

### Platinum® High-Performance ATF Supplement

Eliminates ATF confusion and the need to stock multiple ATFs. For use as an ATF protectant, or enhances a generic base ATF to perform like OEM specific ATFs. Can be used in place of any application that calls for 60902, 61910, or 62005.

- Eliminates the need for multiple OEM fluids.
- For use with any ATF, except Ford Type F and CVT applications.
- Contains the same benefits as OEM endorsed LUBEGARD ATF Protectant (#60902).
- Contains patented Synergol® TMS Technology, which will not alter the crucial sulfur balance in ATF, or harm yellow metals.
- Enhances proper base fluids to perform like:
  - Acura/Honda DW-1 & Z-1
  - AW-1
  - Hyundai/Kia/Mitsubishi SP-III & SP-VI, Kia Red
  - Mercon V, SP & LV
  - Mopar ATF+4
  - T-IV (JWS 3309)
  - Toyota WS
  - Audi, BMW, Mercedes and many more!

### Highly Friction Modified ATF Supplement

To date, this is the only product of its kind used, endorsed, designated, and approved by an automobile manufacturer (OEM). Converts base ATF to perform like highly friction modified OEM ATFs such as ATF+4, Honda Z-1 & DW-1 and SP III.

- Eliminates the need for multiple OEM fluids.
- The #1 tool used by professionals to adjust the frictional characteristics of an ATF to operate at its optimum.
- Recommended for use in Ford AODE and 4R70W transmissions with shudder problems that do not require MERCON® V ATF.
- Contains same benefits as the OEM endorsed LUBEGARD ATF Protectant (#60902).
- Enhances DEXRON®/MERCON® fluids to perform like:
  - Honda® Genuine, Z-1
  - Hyundai SP III
  - Toyota® Type T, TH, TTV
  - Mopar® ATF +3® (7176)
  - Mopar® ATF +4® (9602)
  - Mitsubishi Diamond SP, SP III
  - Saturn Transaxel Fluid
  - Sterling ATF
  - ...and many more!

</tbody>
</table>

### M-V ATF Supplement

Enhances Dex/Merc ATF to perform like Mercron® V ATF & corrects additive depletion and shifting problems for all Ford fluids *except Ford Type F ATF.

- Contains patented Synergol® TMS Technology, which tightens the shift cycle without losing the friction modification at lockup (eliminates shudder).
- Contains same benefits as OEM endorsed LUBEGARD ATF Protectant (#60902).
- Enhances DEXRON®/MERCON® fluids to perform like:
  - MERCON V® ATF, found in many of these vehicles:
  - Ford
  - Lincoln
  - Mercury
  - Mazda

Fluids requiring a reduced viscosity ATF like LUBEGARD COMPLETE Full Synthetic ATF:
- Acura/Honda DW-1 & Z-1
- Dexron HP
- Dexron VI
- Lifeguard 6
- Mopar ZF 8 & 9 Speed Fluid
- Mercon LV & SP
- Nissan Matic J, K & S
- Toyota WS
- Land Rover, Lexus, Volkswagen, Volvo and many more!

- World class replacement for synthetic low viscosity ATF
- Formulated to meet OEM requirements for shear stability, long term frictional stability, superior shift quality, and anti-shudder properties
- Backwards compatible to replace DEXRON® fluids in older automatic transmissions that call for DEXRON® and Honda applications that call for Z-1® ATF

For a complete listing of suitable ATF's, visit www.Lubegard.com or call toll free (800) 333-LUBE

### COMPLETE™ CVT Fluid
Eliminate the need to stock various OEM CVT fluids with this universal formula. For use in any type of continuously variable transmission — including belt and chain types

</table>

- Provides longer anti-shudder performance
- Minimizes friction between belts and pulleys which protects against fatigue damage
- Maintains the performance of a continuously variable transmission by providing excellent wear protection
- Imparts both shear and oxidation stability to the fluid
- Remains fluid at low temperatures for excellent operation in cold weather

### COMPLETE™ Multi-Vehicle Dual Clutch Transmission Fluid
Manufactured with the highest quality synthetic base oils and performance additives, our DCT fluid is designed to provide extreme pressure protection and improved shifting proficiency at all ambient temperatures.

<table>

</tbody>
</table>

- Service solution for over 99% of wet clutch applications
- Tested against OEM approved fluids and proven superior
- Infused with proprietary LXE which provides frictional durability, unrivaled shear stability, and superior wear protection
- Improves shifting efficiencies at all ambient temperatures
- Reduces foaming to maintain proper fluid pressure and flow
- Lubricates and protects seals without shrinking or swelling them
- Increases heat stability of the fluid

### COMPLETE™ CVT & Protect™
CVT Recharge & Protect™ is specifically formulated for continuously variable transmissions to revitalize worn-out fluid by restoring additive components essential to optimal performance. It reduces noise and enhances anti-shudder performance for smoother operation.

Transmission Flush
For use with or without a flush machine to safely flush out old degraded fluid and unwanted by-products in automatic, CVT, DCT and standard transmissions.

Kooler Kleen™ Transmission Cooler Flush
Kooler Kleen is used, endorsed, designated and approved by multiple OEM’s to safely flush contaminants from the transmission cooler and lines to prevent them from entering new installed transmissions.

Assemblee Goo™ Firm Tack (Green) or Light Tack (Blue)
LUBEGARD® Assemblee Goo is the best-selling assembly aid and lubricant for virtually any assembly application (including engines). Dissolves quickly at operating temperatures, will not clog filters and compatible with all transmission fluids.

Premium Universal Lubricant
- Specially designed for the automotive industry, but great for 1,000’s of other general lubrication needs
- Contains new bio-synthetic formula with superior cold flow properties
- Environmentally responsible, non-aerosol and non-flammable
- LXE® Technology has a natural polarity that strongly attaches to the metal surfaces providing superior lubrication preventing wear
- User friendly and won’t irritate sensitive skin
- Non sticking formula repels dirt
- Does not evaporate
- No harsh odor
- Works under most extreme temperatures
- Coats and protects metal, rubber, plastics, etc.
- Excellent penetrant and protects against rust and corrosion
- Does not contain solid particles (like Teflon®)
- Keeps valves and governors free during assembly
- Easy to use, simplifies and expedites the transmission assembly process
- Not harmful to seals or o-rings, or wiring harnesses

- The Service Solution for ALL European, North American, and Asian vehicles (Honda fluid is recommended for Honda and Acura vehicles)
- Significantly reduces friction, provides more potent rust and corrosion protection, and extends the life of the power steering system
- Effective in a wider range of temperatures, eliminating cold starts and overheating
- Protects seals and hoses reducing the risk of power steering leaks
- Eliminates power steering noises and whines
- Improves steering system performance
- Eliminates rack and pinion steering stiffness
- Converts any standard power steering fluid into a premium universal fluid
- Frees sticky turbines and pumps
- Extends system and fluid life
- Reduces wear, thus extending the life of the power steering system
- Increases responsiveness
- Prevents thermal and oxidative breakdown
- Safe for all seals and hoses
- Safely removes deposits and impurities
- Prepares system for new fluid
- Conditions and revitalizes seals and components
- Deters internal power steering fluid leakage from developing
- May postpone or eliminate the need to replace power steering components
- Cleans, conditions and prepares the entire system for replacement of worn components
- Extends life of steering system
- Eliminates power steering noises and whines
- Eliminates rack and pinion steering stiffness
- Efficient in hot and cold weather
- Cleans and frees sticky turbines and pumps
- Provides excellent rust and corrosion protection
- Inhibits fluid foaming and oxidation
- Safe for seals and hoses
**Power Steering Flush and Protect Performance Pack**

For use with or without flush machines. Safely removes deposits and prepares the system for new fluid and protectant.

**Instant Shudder Fixx™**

A concentrated friction modifier formulated specifically for eliminating torque converter shudder problems — instantly.

- The original shudder fix used by transmission professionals to eliminate shudder problems
- Results are immediate, no waiting
- For use with any automatic transmission fluid.
- Not for use in Ford Type F, CVT, or DCT applications

**Squeak Relief® Brake Finishing Treatment**

Ends Headaches Caused by Brake Noise Comebacks.
Even after a high quality brake job, harmonic vibration can produce aggravating brake squeal. The resulting comeback costs you time and money. Squeak Relief is applied directly to the rotor/drum friction surfaces to stop brake noise before it starts. When applied as directed, the Squeak Relief micro-fine oxides form a molecular bond with the rotor/drum friction surfaces. The resulting composite finish helps to eliminate irritating vibration and brake squeal. Squeak Relief delivers superior noise suppression and does not change pedal feel or the break-in properties of the linings.

**Step 1: Flush**
- Safely removes deposits and impurities
- Prepares system for new fluid
- Conditions and revitalizes seals and components
- Cleans, conditions and prepares the entire system for replacement of worn components

**Step 2: Protect**
- Eliminates power steering noises
- Improves system performance
- Eliminates steering stiffness
- Enhances current fluid to a premium PSF
- Frees sticky turbines and pumps
- Extends system and fluid life
- Safe for all seals and hoses
Kool-It™ Supreme Coolant Treatment
Compatible with all types of antifreeze, Kool-It provides complete cooling system protection required for today's modern cars and trucks. Kool-It's unique chemical composition is very effective at preventing damage from electrolysis, corrosion, and pitting. The overwhelming majority of failures associated with aluminum radiators found in most newer vehicles are due to corrosion. This corrosion is a result of deficient chemical protection within the coolant.

Kool-It™ Radiator Flush
Safely removes deposits and other degradation by-products preparing any radiator for new coolant. For use with or without a flush machine.

Step 1: Flush
- Quickly and safely removes scum, oily residue, sediments, rust, deposits and other degradation products from the cooling system of any car or truck
- Safe for all cooling systems including aluminum radiators
- Maximizes cooling system efficiency

Step 2: Protect
- Contains corrosion inhibitors
- Contains no acids
- Safe and easy to use
- Requires no neutralizers

Kool-It™ Radiator Flush and Protect Performance Pack
Safely removes deposits and prepares the radiator for new coolant and coolant protectant. For use with or without a flush machine.

Step 1: Flush
- Quickly and safely removes scum, oily residue, sediments, rust, deposits and other degradation products from the cooling system of any car or truck
- Safe for all cooling systems including aluminum radiators
- Contains corrosion inhibitors
- Contains no acids

Step 2: Protect
- Compatible with all types of antifreeze
- Protects all metals from chemical electrolysis
- Provides unsurpassed cooling system corrosion protection
- Enhances heat transfer and reduces operating temperatures

Kool-It™ Evaporator & Heater Foam Cleaner
Contaminated air conditioning and heater/evaporator cores can cause foul smelling, health threatening mold and mildew deposits. Kool-It's super foaming action removes and neutralizes contaminants that thrive in air conditioning and heater systems of cars, trucks, vans and RVs.

- Quick and easy
- Eliminates odors
- Improves air quality
- Leaves a clean, fresh scent
- Reduces allergens and contaminates
- No equipment or drilling required
- Lasts up to six months

**Limited Slip Supplement**
A universal limited slip supplement that eliminates differential chatter, reduces temperatures, extends clutch pack and equipment life in ANY limited slip differential.

</table>

• Eliminates differential chatter and other noises, (squeals, groans, etc.)
• Universally works in all makes and models with limited slip differentials including Ford, Chrysler and GM
• Reduces differential temperatures
• Extends clutch pack and equipment life
• Inhibits rust and corrosion
• Safe for yellow metals
• Replaces OEM required friction modifiers

**Gear Fluid Supplement**
For use in all manual transmissions, manual transaxles and final drives that require gear fluid.

For manual transmissions that require ATF, use LUBEGARD Automatic Transmission Fluid Protectant (#60902).

</tbody>
</table>

• Reduces drive train power loss
• Lowers temperature and extends fluid life
• Improves heat transfer
• Eliminates cold weather stiffness
• Improves all manual and synchronmesh transmission shifting characteristics
• Reduces tooth drag and absorbs shock loads, improving the life of all gear units
• Lowers friction on bearings and gears with high wiping stresses, (especially hypoid gears)
• Minimizes oxidation and varnish deposits
• Suppresses lubricant foaming
• Safe for new MT Fluids
• Increases power transfer, reduces energy consumption
• Decreases equipment operating and maintenance costs

**Fuel System Booster**
State-of-the-art fuel additive made with our premium PEA and FLA technologies, it is the first 3-in-1 product that provides total system clean-up, fuel lubricity, and fuel stabilization.

It also specifically treats newer DIG (direct injection) fuel systems in addition to the traditional intake-port delivery systems of today.

</tbody>
</table>

• Can be used in any type of engine; gasoline or diesel
• Contains a unique, proprietary polyether amine (PEA) detergent technology, the most effective chemistry for total fuel system cleanup that outperforms competitors
• Proprietary FLA additive provides lubrication to fuel pumps and injectors
• Meets ASTM D-5500 10,000 mile BMW IVD test
• EPA/LAC, CARB, and TOP TIER™ compliant
• Ideal for new DIG fuel systems
• Improves fuel economy and horsepower
• Stabilizes fuel, especially during storage
• Cleans carburetor/fuel injectors in one tank
• Removes deposits from combustion chamber and intake valves
• One step process; just pour in the tank. Does not require aerosol
• Prevents hesitation, rough idle, and stalling
• Allows less expensive, lower octane fuel to be used
• Reduces emissions
• Reduces the rate at which ethanol emulsifies and oxidizes
• Inhibits corrosion that results from emulsified ethanol-containing fuel

**BIO/TECH Engine Oil Protectant**
This bio-synthetic formula is the only product of its kind that provides additional lubricity protection to any engine oil, plus eliminates harmful cold starts and reduces internal friction and wear.

</tbody>
</table>

• Optimizes engine horsepower and performance
• Eliminates lifter and other objectionable noise on startup, especially in cold weather
• Ensures smoother running engines
• Reduces hot engine oil temperatures
• Gives improvement in friction and wear performance over major brands of motor oil
• Blends with ALL motor oils currently produced
• Helps reduce smoking by restoring flexibility to valve stem seals for improved sealing, also providing outstanding upper cylinder lubricity as it frees up sticking rings
PRIVATE LABEL PROGRAMS

Stellar Automotive’s full lineup of filters, bushings, pistons, washers and parts are a perfect union for private label transmission kits. International Lubricants Inc. has the capacity to fill several different products with the use of multiple blending lines.

We provide many packaging and shipping options with a promise to deliver a quality product on time. From your idea to your doorstep, let us handle all your parts and chemical fulfillment needs.

Lubegard® Automatic Transmission Filter Kits

Lubegard’s Filter Kits contain nitrate rubber gaskets with a premium felt or metal mesh filter mechanisms for ultimate performance. Available in over 400 domestic and foreign applications and can be privately labeled to accommodate any customer. Available on Epicor.

Resources
LUBEGARD has many resources available for PDF download. Our product catalog, several service tools such as our OEM ATF & Conversion Chart, Limited Slip Supplement application chart, and many more. We also have each product’s SDS as well as individual product data sheets. Scan the code above to view the collection.

Vehicle Look-up
With our brand-new Vehicle Look-up, you can now search by exact Make, Model & Year to see which of our products are compatible with your vehicle. The transmission codes help you decipher between 2 different transmissions in the same-year vehicles. It’s fast, it’s easy, and it’s waiting for you!
