LUBEGARD® COMPLETE™ Full Synthetic ATF is a world-class lubricant formulated for outstanding performance and efficiency in meeting or exceeding OEM requirement for reduced viscosity.

Lubegard’s unique, proprietary LXE® Technology provides superior wear protection with improved frictional and shear stability (high film strength for the life of the fluid).

This unique technology prevents and eliminates torque converter shudder, improves shift quality and imparts excellent torque carrying capacity for long clutch and component life. LXE® Technology is seal and o-ring friendly, ideal for new, older, and higher-mileage vehicles.

Lubegard® COMPLETE™ Full Synthetic ATF is recommended for all automatic transmissions that require a fully formulated low viscosity ATF with exceptional performance and uncompromising protection. It is engineered to meet or exceed OEM requirements where lower viscosity is required.

**BENEFITS:**

›› World class replacement for synthetic low viscosity ATF.

›› Backward compatible to replace DEXRON® fluids in older automatic transmissions that call for DEXRON® as well as Honda applications that call for Z-1® ATF.

›› Formulated with LXE® Technology to meet OEM requirements for shear stability, long term frictional stability, superior shift quality and anti-shudder properties.

›› Seal-friendly LXE® Technology restores seal flexibility and performance to older and high mileage transmissions.

›› Cures sluggish transmission performance on cold mornings.

›› The #1 technology used and endorsed by transmission shops for 30 years now available as a world class service solution for automatic transmissions.

# LUBE GUARD COMPLETE™ Full Synthetic Transmission Fluid

is compatible with the following ATFs:

- ACURA
  - ATF Z-1
  - ATF DW-1

- AISIN
  - M315
  - AW-1

- AUDI
  - Esso LT71141
  - G 052 990 A2
  - G 052 162 A1, A2
  - G 055 005 A2
  - G 055 162 A2
  - G 055 540 A2
  - G 060 162 A2

- Allison
  - C-3
  - C-4
